Solidproject.org

Content Overview + Improvement Ideas

What purpose does this site serve?

- Explain Solid to technical and non-technical audiences

- Act as the jumping off point for various personas to learn more according to their interests

Who is this site for?

- Students working with Solid (technical)

- Hobbyists (technical)

- Laypeople (non-technical)

- Companies looking to use Solid (non-technical or technical)

Students

Who

- Told to use Solid for assignment
- Found Solid from researching topics for PhD, Master's projects, etc
- Computer Science students
- Not necessarily fluent/knowledgeable about RDF

Actions

- Learn about Solid
- Spin up local Solid Server
- Follow a get started demo
- Ask a question

Hobbyists

Who

- Have programming background
- Interested in the next big thing
- Wants to contribute to open source community
- Wants to make their own apps

Actions

- Spin up local Solid server
- Use existing libraries
- Participate in community meetings
- Contribute to spec
- Develop their own app

Laypeople

Who

- Average consumers
- Not technical (no coding knowledge)
- Follows trends on privacy, security, big data, big tech

Actions

- Get information at their level
- Ways to play around with what currently exists
- Ways to engage that's easy and not intimidating

Companies

Who

- Senior individuals at company looking for how new technology could help them in their job/business
- Team lead that has been told to learn more
- Read tech journals/news
- Investigates options

Actions

- Spin up local Solid server
- Identify other companies in the space
- Gather evidence

Spotlight Solid World

Proposal #4

Solid World

Solid World is a quarterly, virtual gathering where we highlight the most exciting work happening in the Solid ecosystem.

Join the Next Solid World
Follow us on EventBrite to sign up to attend the next Solid World.

Want to be a speaker?
Fill out the Solid World Speaker form if you are interested in speaking at an upcoming Solid World.
